

The Ministry Responsibilities of Congregational Health Promoters (CHP) are :

- * to promote healthier lifestyles in the congregation and community through education and encouragement
- * to identify people who may be developing an illness which could be serious
- * to be aware of people with long-term or chronic illnesses
- * to refer people to their own physicians ,a physician in the community, or the physicians at the CHC , if needed
- * to assist the congregation in sponsoring health events or activities which will raise the health awareness and issues of the people in their church or community.
- * to keep the Congregational Leader informed of all health ministry plans and events.
- * to confidentially share (with the permission of the individual) any urgent health needs and concerns with the Congregational Leader (or such persons that he or she designates).
- * to bring to the attention of Church Health Center Staff and/or the CHP Steering Committee any health related requests made by the congregation or community.
- * to attend at least two workshops per year with CHC staff.
- * to recruit future Congregational Health Promoters.
